PROFESSIONAL SUMMARY

Aspiring Software Engineer with hands-on experience developing and deploying production-ready full-stack web applications using React.js, Node.js, Express.js, PostgreSQL, and REST APIs. Strong foundation in Core Java, Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), DBMS, SQL, and SDLC, with a keen interest in Java Full Stack Development.

TECHNICAL SKILLS

- **Programming Languages:** Java (Core Java), JavaScript (ES6+), SQL, Python, C
- **Core Java:** OOP, Collections, Exception Handling, Multithreading (Basics)
- **Frontend:** React.js, HTML5, CSS3, Bootstrap, Responsive Web Design
- **Backend:** Node.js, Express.js, REST APIs, CRUD Operations
- **Database:** PostgreSQL, MySQL
- **Authentication & Security:** JWT Authentication, bcrypt, RBAC
- **Tools:** Git, GitHub, VS Code, Eclipse, Postman
- **Core CS:** DSA, DBMS, Operating Systems, SDLC

INTERNSHIP EXPERIENCE

Software Developer Intern

May 2026 – Present

VJC Overseas Immigration & Visa Consultants

hrms.vjcoverseas.com

- Developed and deployed a production-ready Human Resource Management System (HRMS) currently supporting real-world HR operations.
- Designed and implemented REST APIs for employee management, attendance, leave management, payroll, offer letters, and notification modules.
- Implemented JWT Authentication, bcrypt password hashing, and Role-Based Access Control (RBAC) to secure application access.
- Designed PostgreSQL database schemas, optimized SQL queries, and collaborated in debugging, testing, deployment, and production support.
- Worked closely with the development team following software development best practices and Object-Oriented Programming principles.

PROJECTS

Production HRMS Platform

React.js — Node.js — Express.js — PostgreSQL

- Built a complete HRMS featuring employee management, attendance tracking, leave management, payroll processing, offer letter generation, and role-based dashboards.
- Implemented audit logging to track attendance and break-time modifications, improving system transparency and accountability.
- Developed secure database relationships, reusable backend modules, and responsive user interfaces to improve maintainability.

Department Website Management System

React.js — Express.js — PostgreSQL

- Developed a responsive departmental website with structured content management and reusable UI components.
- Built REST APIs and integrated PostgreSQL for efficient storage and retrieval of department information.

Find Your Partner

React.js — Node.js — Express.js — PostgreSQL

- Developed a full-stack matchmaking platform with user registration, profile creation, and partner search features.
- Implemented secure authentication, REST APIs, and PostgreSQL database design for efficient user and profile management.
- Built responsive React.js interfaces with dynamic filtering and CRUD operations to enhance the user experience.

EDUCATION

B.Tech in Computer Science and Engineering (Artificial Intelligence & Machine Learning)

2022 – 2026

Holy Mary Institute of Technology & Science, Hyderabad

CGPA: 8.57

Intermediate (MPC)

2020 – 2022

Sri Gayathri Junior College, Hyderabad

Percentage: 96%

ACHIEVEMENTS

- Solved 80+ Data Structures & Algorithms problems on coding platforms using Java and JavaScript.
- Built and deployed a production-ready HRMS used for real-world business operations.
- Mentored junior students in academics, programming fundamentals, technical learning, and project development.
